

JOHN S. LONG.

Dr. S. Weir Mitchell, the Great Neurologist, Warns Americans Who Neglect Their Nerves.

"In busy centers the number of deaths due to nervous causes has increased twenty per cent in forty years. One-fourth of the deaths in cities to-day are from nervous diseases."—Dr. S. Weir Mitchell.

The clean, rich nerve-force that was behind the health and happiness of thousands upon thousands is literally burning itself up like the dry wick of an empty lamp. It is the "Strenuous Life," with a vengeance.

Can men who go to their work in the morning tired and with lax spirits give to their own affairs the electric touch of confidence and power upon which success depends?

Can mothers worn out and nervous, plodding daily or ill-tempered through the routine of homekeeping, bring into the family life that precious spirit of hopefulness and happiness without which the word "home" seems a mockery?

When you feel exhausted—when you grow tired sooner than you should—when you lose patience with the irritating cares of daily life—when you feel discouraged—when you feel that your hopes and ambitions are not as high as they used to be—when you spend a sleepless night—when you get up almost as weary as when you went to bed—when you are worried.

These are all signs that your nerve forces are burning low.

Neglect the nerves and they will make you feel this neglect in many ways, they control all of the organs of the body and must be kept healthy and strong to do their work properly—tired nerves cannot keep the organs of the body working in that harmony which is essential to real health.

This is why Paine's Celery Compound is able to bring health in so many different forms. Paine's Celery Compound feeds and nourishes the nerves. It makes new Nerve Force. It makes pure, rich blood, a clean active liver, a stomach that acts quietly and strongly upon all the food that is given to it, bowels that throw away promptly and surely all the ashes from life's engine room.

It makes the heart beat true and evenly, it makes the brain clear and vigorous.

The Nerve Force does this all, and Paine's Celery Compound makes the Nerve Force.

Best of all it makes that buoyant life-spirit, the thrill of health, that is the secret of happiness and the keynote of individual success.

Without Nerve Force there can be no health at all—no success—no joy in living.

John S. Long's case is simply one of thousands upon thousands. An average case and an object lesson to the average person.

"For nervousness and stomach troubles Paine's Celery Compound is the medicine. I was almost a physical wreck when I commenced to use Paine's Celery Compound, and now I am as healthy as any man in the world, and I owe it all to Paine's Celery Compound. The first bottle I took helped me wonderfully, and by the time the second was used I was a well man, and I can cheerfully recommend it to any one as being the best medicine I have ever used."

—John S. Long, Ballard, Wash.

Try Paine's Celery Compound to-day. It braces you up at once.

Take two days' treatment. See how much better you feel. See how much more easily the trials roll away.

For over 18 years Paine's Celery Compound has been the most universally used nerve vitalizer and tonic in the world.

Remember this—Paine's Celery Compound is the prescription of one of the most famous physicians this country has ever known, Prof. E. E. Phelps, of Dartmouth University. All reputable druggists recommend and sell Paine's Celery Compound.

NEWS FROM THE KEARSARGE

ITEMS OF INTEREST CONCERNING THE FORMER FLAGSHIP.

The work of the starboard 5-inch battery was anything but good and although the loading crews were in fine trim and did some pretty work, still the hits were remarkably poor.

The port battery very easily out-classed them.

On Nos. 1, 3, 5 and 7 occurred fully a dozen "miss-fires" and although the electric firing mechanism was tested after each "miss-fire," nothing could be found amiss, consequently it was credited against the ammunition.

It was while a bang fire was in Nos. 5, 7 and 9 that Chief Gunners Mate Fisher, in casually looking at a shell box, thought he saw a "P. P." in small letters on the side. Further investigation proved that percussion primers instead of electric primers were being used in the shells. As the guns were all equipped with electric firing-gear which will not fire a percussion primer, the "hang" or "miss-fires" were found to be simply mistakes.

When it became known, the officers laughed out loud and the gun crews called themselves some pretty hard names. Should such a mistake occur in an engagement the result is obvious.

The Kearsarge certainly has the baseball fever as well as the pennant. The crews of the main battery after firing, Friday, played a lively game of indoor baseball on the superstructure.

A white bat stuffed with socks and wound with rope-yarn made a fairly decent ball and a "squeegee" handle done service as a bat. The fun was fast and furious and lasted until supper, when all hands concerned were glad enough to quit.

In hoisting in a whale-boat during a bit of weather a good deal of presence of mind was exhibited by Midshipman Powell, who was in the boat with six men. The crane was hoisting it up and the "sea" fell from under, which caused the side slings to carry away and capsize her in mid air. The crane man became aware of the danger in which the men were placed and stopped hoisting. But for the prompt and loud orders from Midshipman Powell to hoist-away, the crew certainly would have had a wetting as the boat was in convenient reach of the swells and another one would have surely carried away both her forward and after slings.

It is quite natural that the "Iowa" should say that she holds the baseball pennant. She was so sure of defeating the "Kearsarge" in the final game that she hasn't as yet fully realized her mistake and that the pennant is on the "Kearsarge" and not the "Iowa."

The "Kearsarge" is open for a game with any army or navy baseball team and local amateur.

The bunks in the sick-bay are all empty and but three or four on the sick list.

The new paymaster seems to be a gentleman and the whole crew weighs more.

Midshipman Atkinson, who was shot through the foot by an accidental discharge of a revolver at Palmetto Beach rifle range while this ship was lying off the city, is doing nicely at his home in Waverly, Georgia.

DOING THEIR DUTY
Scores of Pensacola Readers are Learning the Duty of the Kidneys.

To filter the blood is the kidneys' duty. When they fail to do this the kidneys are sick.

Backache and many kidney ills follow. Urinary trouble, diabetes, Doan's kidney pills cure them all. Pensacola people endorse our claim.

Charles Wilson, living on West Romana street, brick mason by trade, says: "I procured Doan's Kidney Pills at Sidney Kahn's drug store, No. 9 South Palafox street, and used them for a lame back and sharp twinges of pain which passed through me when I stooped or made any sudden movement. I was surprised at the quickness with which I was relieved. Mrs. Wilson also suffered from her back and kidneys. She could hardly turn in bed and suffered from a dull aching pain in her loins. Just before taking Doan's Kidney Pills she was completely laid up. After taking a course of the treatment all symptoms of kidney trouble left her, and up to date there has been no recurrence. I strongly urge Pensacola people to use Doan's Kidney Pills if they suffer from their back or kidneys."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.
